ABBREVIATIONS EMPLOYED IN EXPERIMENT STATION RECORD FOR TITLES OF PERIODICALS

Compiled by FRANCES A. BARTHOLOW, Office of Experiment Stations

This list is a revision and enlargement of one published in 1905 as Office of Experiment Stations Circular 62, and covers the period 1915-1924. It includes abbreviations and full titles of periodicals, other than regular State agricultural experiment station publications, from which abstracts are made for Experiment Station Record, and in the interest of consistency in making abbreviations for new periodicals there is added a list of abbreviations of the principal words commonly used in the titles listed.

The plan originally adopted has been generally followed. To secure simplicity and to avoid a constant source of error in proof reading the principal words are capitalized in all cases regardless of the usage of the individual journals or of the countries from which they are issued.

The rapid growth of the periodical literature making direct or indirect contributions to agricultural science is shown by the fact that whereas the list published in 1905 contained only 1,600 titles, the present list contains about 3,600 titles in 15 or more languages.
